PhotoStory (Photo Story is on all of the library computers, and is a free download)

To download at home:
http://www.microsoft.com/en-us/download/details.aspx?id=11132

To create:
1. Click "Begin New Story"
2. Import Images (Make sure that images are with you until you render the video), Click Next
3. Add text (if necessary), Click Next
4. Click the record button, and record audio, Click Next

5. You can add music, IF it is not a distraction
6. Click on "Save Your Story for Play Back on Your Computer" (This step is very important!!)
   --Make sure to note the location that your file is being saved to
      -Click on Browse to save your file to your flashdrive or desktop
7. A window should come up saying "Building Your Story", and you will be able to view your project

To submit
1. Submit your file (It must be a .wmv file!!) on to Schoology

Yodio

To create:
   1. Create a Yodio Account by going to Yodio.com
      -Use Chrome
      -Problems may occur if you don't click on the top right of your browser window in order to
      "Load Unsafe Content" (Don't worry, it's safe, it is a coding issue)
   2. Click on "Create Yodio"
   3. Insert Images
   4. Insert Audio
      -This must be audio that you have previously created and saved into an .mp3 file or .wav file
      -You may convert files that you created using a recording app on your phone using zamzar.com
   5. Align Audio Files and Image files on the Video Pane on the right side
   6. Publish Yodio

To submit:

   1. Go to "Share/Embed" and copy the "Quick link" after you have published your Yodio
   2. On Schoology.com, click on "Submit Assignment" under the assignment.
   3. Choose "Create"
   4. Click on the "Link Option", and copy the "Quick Link"of your yodio project
   5. Click "Save"
