

## À votre examen:

Since we only covered half of the material presented in Chapter 4, the test is not a long test. **That means that you must know all of the information well.** Missing several points will quickly add up and greatly affect your percentage. Your review sheet is an excellent view of what will be on the test!

Here is break down of sections:

**Écoutons!**-Listen to questions and responses. (This is kind of tough, so study those expressions!!) Also, listen to a conversation and decide the place at school that the conversation is about.

**Lisons!**- Read a paragraph about Nicolas and his science experiment, which he does with rats (**Les rats** en français.) You will answer vrai/faux type questions. You will also read statements and decide if they are logical or illogical statements.

**Culture**- Know what the DEC is at the CEGAP. Also, do the French or the Québécois buy their textbooks? This section is all in French so re-read the Flash Culture from your textbook.

**Vocabulaire** – You will have a fill in the blank section. Choose words from a Word Box to complete sentences. And, a section where you match an activity with the location in school where it would take place.

**Grammaire** –Conjugate the verbs suivre or recevoir.

**Rédaction** – Using an image and a list of vocabulary words. You will write a 5 sentence paragraph about the image.
